Awards, Honors & Kudos

New Appointments

Leo Tsai, MD, PhD, MSc, has been appointed Clinical Director of MRI in the Department of Radiology. Leo joined our department in 2009 as a Diagnostic Radiology Resident and continued his training with us as a Clinical Fellow in Body MRI. In 2014, he was promoted to Assistant Professor of Diagnostic Radiology and was appointed Radiologist in our Abdominal Imaging Section and Division of Body MRI. In 2017, he became our Director of Oncologic Imaging and, most recently, also served as Interim Director of the Division of Clinical MRI. Leo holds an MD from Harvard Medical School, a PhD in Biophysics from the Harvard Graduate School of Arts and Sciences, and an MSc in Medical Physics from Cambridge University. In addition to receiving external funding for both his clinical and translational research, Leo has received funding for his entrepreneurial technology developments, as well as numerous professional awards and honors, including the Norman Joffe Faculty Awards in 2016 and 2018.

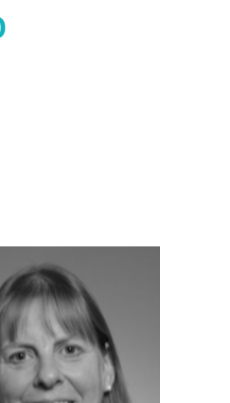

Cinthia Cruz-Romero, MD, has been appointed our next Director of Ultrasound. Cinthia joined our department in 2019 as a Radiologist in our Abdominal Imaging Section and Instructor in Radiology at Harvard Medical School. She completed her residency in Radiology and Medical Imaging as part of the San Juan de Dios Hospital, Universidad de Costa Rica and University Medical Center Hamburg-Eppendorf joint program. She then completed a Radiology research fellowship and clinical fellowships in Nuclear Imaging, Abdominal Imaging, and Pediatric Imaging at Massachusetts General Hospital. In her new role as Director of Ultrasound, Cinthia will work as a clinical partner to Bernie and oversee the operational, technical quality and safety, and resource aspects of our ultrasound services, as well as manage the different service lines we offer.

Congratulations to both Cinthia and Leo on their well-deserved appointments!

Olga Brook, MD, has learned that her project entitled "Radiology review of pathology results discordant with imaging findings of image-guided biopsy" has been accepted for CRICO grant funding.

Dr. Seth Berkowitz is Olga's co-investigator on this grant.

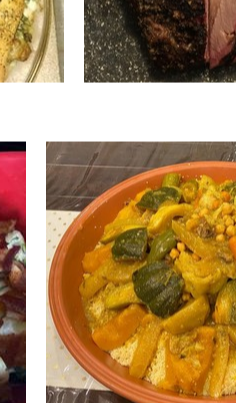

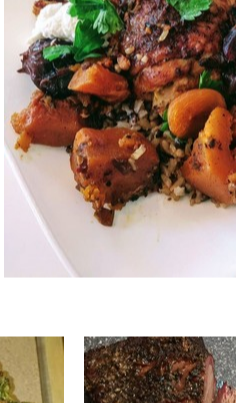

Founded more than 40 years ago, the CRICO insurance program includes all of the Harvard medical institutions and their affiliates, providing coverage to 32 hospitals, 15,500 physicians, more than 325 other health care organizations, and in excess of 100,000 other clinicians and employees.

CRICO has also provided funding through its grants program to support continued advancements aimed at improving patient safety.

Congratulations, Olga and Seth!

The Academy for Radiology & Biomedical Imaging Research (the Academy) is pleased to announce that 39 researchers have been selected to receive the Academy's 2020 Distinguished Investigator Award. This prestigious honor recognizes individuals for their outstanding contributions to the field of medical imaging. All four of our nominees were recognized—please join us in congratulating the following colleagues, pictured below (clockwise from the top-left corner):

- **David Brian Hackney, MD**
- **Deborah Burstein, PhD**
- **Gerald M. Kolodny, MD**
- **Deborah Levine, MD**
